

3. Management and Leadership in CBR

Tanzania

Background

Enablement offers powerful leadership and management training for key persons involved in Community Based Rehabilitation (CBR). This training focuses on developing skill sets that help participants to become stronger, more confident leaders and managers.

General objective

Equip key people in CBR with the necessary knowledge, attitudes and skills to plan, develop, evaluate and scale up CBR programmes.

Course content

- A review of disability with emphasis on disability measurement and research tools.
- A critical review of the current status of CBR.
- Project Cycle Management in CBR.
- Human Resource Management.
- Strategic Management.

- Management Information Systems.
- Organizational Development.
- Institutional Development.
- Monitoring and Evaluation in CBR.
- CBR: Manpower Planning.
- Scaling up and phasing out.
- The role of Disabled People's Organisations in CBR.
- Becoming an effective CBR leader.
- Development of (support) networks.

Target groups

This course is clearly meant for policy makers, planners and managers of rehabilitation programmes. A high level course for: senior staff of governments, NGOs, DPOs and donor agencies.
